EXAMINER'S AMENDMENT

In The Claims

Claim 20 , Line 1 " (A " has been changed to -- A --.

Claim 28 , Line 2 " periodic input " has been changed to -- energizing --.

Authorization for this Amendment was given in a telephone interview with Guy Eriksen on November 23, 2005.

REASONS FOR ALLOWANCE

The claimed invention of a power supply is found to be allowable over the prior art since power supply comprising first and second capacitors, a switch periodically forming the first and second capacitors into a capacitive voltage divider across an input source producing a first portion of the power supply output voltage across the second capacitor, and an impedance coupled to the input source and the second capacitor that bypasses the first capacitor producing a second portion of the power supply output voltage across the second capacitor was not found to be singularly or collectively taught by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
